

A vibrant landscape featuring several white wind turbines on a rolling green hill under a blue sky with scattered white clouds. In the foreground, a row of solar panels is visible, partially obscured by a blue and green graphic overlay on the left side of the image.

Renewableni

Membership Offer 2024

Renewableni

RenewableNI is the voice of the renewable electricity industry in Northern Ireland.

Engaged in wind, solar and battery storage, our members make up a large majority of the renewable industry supply chain.

As part of both RenewableUK and Wind Energy Ireland, we have a reach across these islands.

Our People

STEVEN AGNEW
Director

GARTH MCGIMPSEY
Chair

JUDITH RANCE
Communications and
Events Manager

DAGNY AHREND
Policy Analyst
(Planning and Offshore)

PAUL CARSON
Deputy chair

LAOISEACH SCULLION
Policy Analyst
(Markets and Grid)

Our Values

Trusted (How we are seen)

We are professional, confident and expert, and we hold ourselves to account.

Passionate (How we feel)

We are committed to the renewables sector, proud of what we achieve with and for our members, and stand by our beliefs.

Collaborative (How we behave)

We work together to build strong, supportive and diverse relationships, excellent member and customer service and clear communications.

Innovative (How we think)

We are intellectually curious, creative in our thinking, and willing to challenge the status quo.

Our Ambition

ZERO BY 2035

The International Energy Agency (IEA) states that all advanced economies must achieve zero carbon electricity by 2035. This is now reflected in UK Government policy. Northern Ireland has one of the greatest wind resources in the world and is well positioned to meet this target.

80 BY 30

We currently have a 1.8GW renewable capacity. The NI Climate Change Act set a target of 80% renewables by 2030. This will require more than doubling the renewable electricity generation to meet the growth in demand as we electrify heat and transport.

Membership Offer 2024

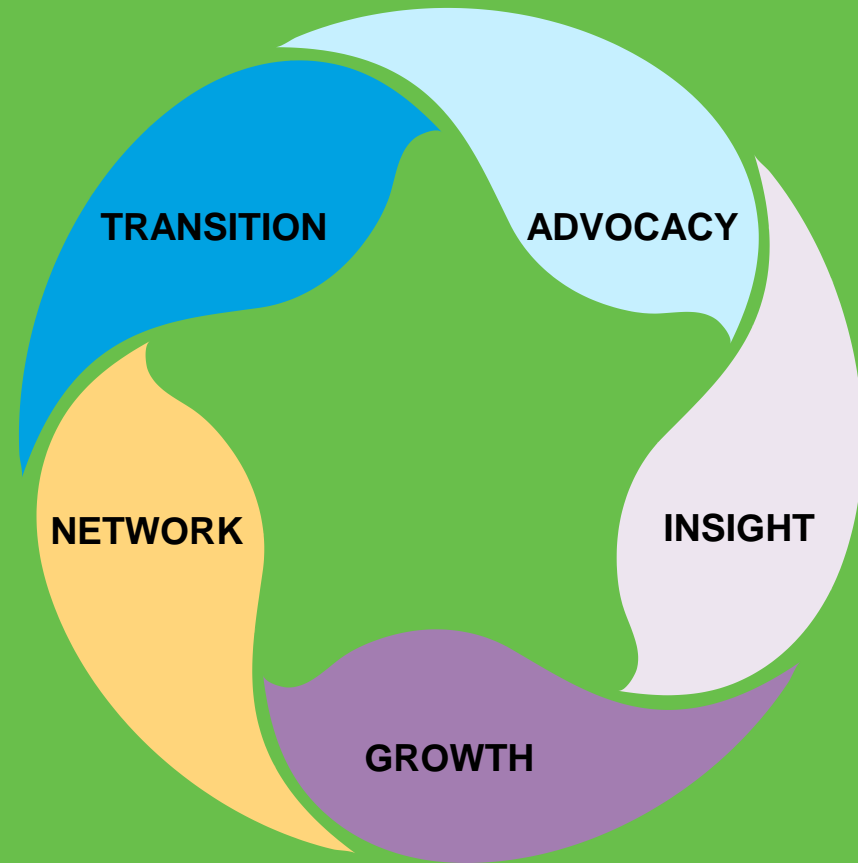

Our Member Forums

- Strategic Council
- Steering Committee
- All Island Markets Committee
- NI Markets Working Group
- Grid Working Group
- Grid Capacity Working Group
- Offshore Working Group
- Planning & Environment Working Group
- Distributed Generation Working Group

Our Member Benefits

- Advocacy on the renewable sector's behalf, ensuring elected representatives continue to listen to our members and their needs.
- Providing members with the best information and resources to ensure they can help build a cleaner future, including access to the latest RNI publications, research papers and reports.
- Influencing policymakers and public opinion with evidence-based intelligence and insight.
- The opportunity to network with other leading businesses in the renewable energy sector.
