Influence, Insight and Access for Northern Ireland's Renewable Electricity Sector

The voice of Northern Ireland's renewable electricity industry, RenewableNI is driving the clean energy transition. Advocating for zero carbon electricity by 2035, we facilitate crucial discussions, inform and shape policy, and host events that bring together industry, policymakers and stakeholders to help deliver a sustainable, low-carbon future.

RenewableNI was established in partnership with Wind Energy Ireland and RenewableUK and works closely with both organisations to ensure Northern Ireland's voice is heard in energy policy and industry discussions across these islands.

RenewableNI's members represent the majority of Northern Ireland's renewable electricity supply chain, with interests across wind, solar and energy storage.

Strategic objectives

Our People

STEPH DUNLOP
Chair

MARK RICHARDSON
Director

SARA TINSLEY
Deputy Chair

SHANE CORCORAN
Head of NI Policy

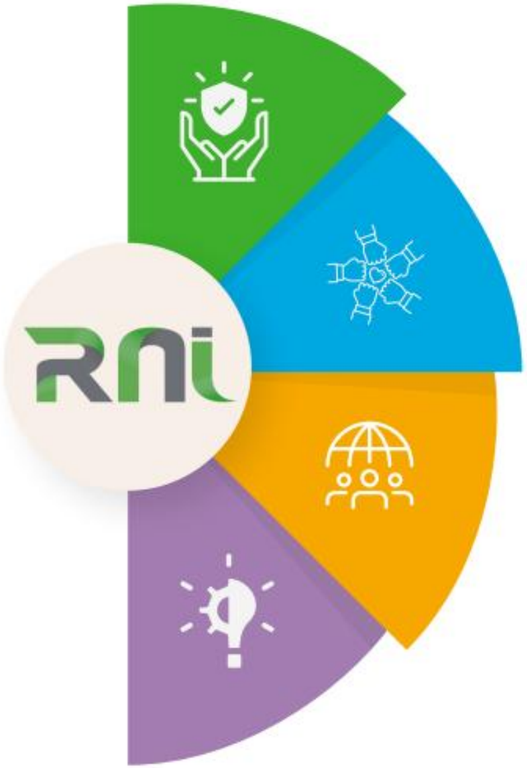

JUDITH RANCE
Head of Communications and Events

MADELEINE CLARKE
Policy Analyst

Our Values

Trusted (How we are seen)

We are professional, confident and expert, and we hold ourselves to account.

Passionate (How we feel)

We are committed to the renewables sector, proud of what we achieve with and for our members, and stand by our beliefs.

Collaborative (How we behave)

We work together to build strong, supportive and diverse relationships, excellent member and customer service and clear communications.

Innovative (How we think)

We are intellectually curious, creative in our thinking, and willing to challenge the status quo.

RenewableNI

Membership Offer 2026

Membership Benefits

- **Shape policy:** Members contribute to policy updates and commissioned research that influence the development of clean energy in Northern Ireland.
- **Access to working groups and committees:** Engage directly with RenewableNI's policy and strategy development teams.
- **Engage with government:** Opportunity to meet and address elected representatives to support renewable deployment.
- **Industry connections:** Network with leading businesses, innovators, and stakeholders across the renewables sector.
- **Exclusive events:** Early booking and discount for bespoke networking events, conferences, and member-only forums.
- **Promotion and Visibility:** Your company logo and link to your website on Member page, and your organisation's success stories shared on RenewableNI's platforms.
- **Access to Insights and Research:** Get early access to RenewableNI's research, reports and EnergyPulse.

Introducing Affiliate Membership

Affiliate Membership is available to representative bodies, academic institutions and strategic partner organisations. Aimed at organisations with professional interest in the renewable sector but are not directly involved in RenewableNI's working groups, governance or core policy development.

Affiliate includes:

- Access and insight: Industry briefings, market insight, exclusive data from EnergyPulse and surveys.
- Events and networking: RenewableNI member rates and priority booking or contra attendance and exhibition.
- Collaboration opportunities: Cross-sector discussion, collaborative messaging, collaboration on research, skills and innovation initiatives and invitation to speak at RenewableNI events.
- Visibility and profile: Listing in member directory and 'new member' welcome on social media.

Affiliate rates available on request.

- Distributed Generation Working Group
- Communications Group

Why Flexibility and Storage Matter

A cleaner power system needs more than renewable generation alone

1. More renewable generation brings more variability across time and location
2. Storage, flexible demand and smarter system operation help balance supply and demand
3. Networks, markets, policy and regulation must evolve together to unlock investment.
